EMERGENCY RESPONSE TO HAIRDRESSER

POLICY:

When a resident is in the hairdressing room and requires assistance and/or assessment, Registered Nursing staff will respond to Emergency paging by the hairdresser.

OBJECTIVE:

To ensure quick response by the RN to an emergency page and to aid and assessment where necessary.

PROCEDURE:

When the hairdresser requires assistance, he or she will page using the overhead paging system: "Registered Nurse to hairdressing immediately."

The RN will then proceed to the hairdressing room to aid and/or assessment to the call.

The Registered Staff will remove the resident from the hairdressing room for further assessment and follow through with the Physician if necessary.
